# Healing Music

NEW MUSIC + NEW ARTISTS + EXTRAORDINARY PERFORMANCES

*Our mission is to produce calming and melodic music of the highest quality, performed by accomplished artists, and deliver it to the widest possible audience.*

## **The Healing Music Style**

### **The Healing Power of Music**

Backed by multiple scientific studies from around the world, we believe in the healing power of human interactions through calming music, especially in these times of stress and isolation.

Featuring only one instrument per album, our music can be applied to multiple environments, i.e., meditation, relax, yoga, reading, writing, commuting, etc.

Our ULTIMATE TINNITUS RELIEF VOL 1&2 albums are designed to help alleviate the symptoms of this widely spread condition which affects around 15% of the population, this is more than 50 million people in the US alone (according to the American Tinnitus Association).

### **Real musicians**

We carefully choose our artists from the academic, classical, and popular music scenes. These are well-established musicians with a solid background in their instruments and years of experience as performers. From centuries-old pieces to original compositions, our artists deliver their unique approach to relaxation, beauty, and melody.

### **Real instruments - Real sounds**

No synthesizers, no samples, no loops, no AI-produced music, no instruments from libraries.

We believe in the unique energy of the sounds that come from real instruments produced with the hands of human beings. Our choice of instruments is varied, ranging from grand piano to different acoustic guitars, from harps to Kokle (ancient Latvian table harp), and other traditional and less known acoustic instruments.

### **Hi-res**

All the albums are recorded at 96k/32 bits (reduced to 24 bits at Mastering) using the highest quality audio equipment to date.
