PRIMA CLASSIC

NEW MUSIC + NEW ARTISTS + EXTRAORDINARY PERFORMANCES

*Our mission is to produce beautiful music performed by accomplished artists,
and deliver it to the widest possible audience.*

*From the dramatic heights of 19th-century opera
to the intimate sound of a Spanish guitar piece composed today,
at **Prima Classic** we strive to guarantee recordings of the finest musical quality.*

The Healing Power of Music

Backed by multiple scientific studies from around the world, we believe in the healing power of human interactions through music, especially in these times of stress and isolation.

Top-tier musicians

We carefully choose our artists from the academic, classical, and popular music scenes. These are well-established musicians with a solid background in their instruments and years of experience as performers, educators, composers, and musicologists. Some of them are world-famous stars.

From centuries-old pieces to original compositions, our artists deliver their unique approach to music, be that in the style of relaxation and calming music, or in the performance of heart-wrenching dramatic pieces of the *bel canto* operatic repertoire.

Real instruments - Real sounds

No synthesizers, no samples, no loops, no AI-produced music, no instruments from libraries.

We believe in the unique energy of the sounds that come from real instruments produced with the hands of human beings. Our choice of instruments is varied, ranging from grand pianos to different acoustic guitars (some of them unique in the world), from harps to Kokle (ancient Latvian table harp), and from Bendir (ancient hand frame drum) to Handpan (tonal drum invented in the 2000s), and others, both traditional and less known acoustic instruments.

Hi-res from inception

All of our albums are recorded at 96k/32-bit floating (reduced to 24 bits at Mastering) using the highest quality audio equipment to date. All our recordings are available in Hi-Resolution (Studio Quality 96/24), Apple Digital Masters, and all our new releases are also available on Dolby ATMOS.
